The La Réserve Private Homes collection unveils an exceptional destination in the heart of the Seychelles

OPENING IN SEPTEMBER 2026

The pearl of the Seychelles archipelago, the island famous for its suggestively shaped “coco-fesses”, is the protective setting for a strikingly luxuriant Garden of Eden. Living in harmony with this blissful setting is the ultimate promise of six villas, where luxury rhymes with nature, beauty and simply going with the flow. Not to mention admiring one of the world’s most beautiful sights: the Curieuse Island Nature Reserve and its marine park – a daily celebration of the encounter between natural perfection and the turquoise waters of the Indian Ocean. With complete privacy and discreet daily service, each villa offers a rare experience combining freedom, natural beauty and unforgettable emotions.
